

ROBOT VACUUM CLEANER

Looking for a robot which takes over your cleaning tasks? It's now possible thanks to the H.Koenig SWR28 robot vacuum cleaner. H.Koenig is using the latest technology for this new generation of robotic vacuum controlled by an intelligent algorithm.

Whether you are at home or away, you can program your device up to 7 different cleaning periods by week.

Thanks to its low height, the SWR28 goes everywhere. Using its several sensors, it identifies empty space and obstacles, making the cleaning more efficient.

Independent, the SWR28 goes automatically back to its charging base at the end of its cycle. Its suction efficiency and its double system of brush enable an optimal cleaning of your floors.

The robot vacuum cleaner H.Koenig SWR28 will do it for you!

Features
